## M.2 SSD Adapter

M.2 NGFF SSD to 2.5" SATA Adapter

### Package Contents

### Features

- Open-frame aluminum mounting bracket
- Supports 7mm or larger 2.5" SATA bays
- Support for SATA revision I/II/III (1.5/3.0/6.0 Gbps)
- 2.5" SATA form factor housing, 7mm high
- Supports full length M.2 NGFF SSD (2230, 2242, 2260, 2280)

Converts on M.2 NGFF SSD  
(22x 30/42/60/80 mm of size)  
into a standard 2.5" SATA HDD

### M.2 SSD Installation

#### M.2 SSD 2280

① Insert a screwdriver into the hole and knock open the upper cover

② Take the screw to lock the M.2 SSD 2280 card

③ Put on the top cover

④ Fasten the side screws

#### M.2 SSD 2230, 2242, 2260

① Insert a screwdriver into the hole and knock open the upper cover

② Unscrew the screws and remove the PCB

③ Take the screw to lock the M.2 SSD 2230, 2242, 2260 card

④ Fasten the side screws

### Safety information

Please read carefully the following information to prevent injuries, damage to material and device as well as data loss:

#### Warning levels

Signal words and safety codes indicate the warning level and provide immediate information in terms of the probability of occurrence as well as the type and severity of the consequences if the measures to prevent hazards are not complied with.

**DANGER**

Warns of a **directly** hazardous situation causing **death** or **serious injury**.

**WARNING**

Warns of a **potentially** hazardous situation that **may** cause death or serious injury.

**CAUTION**

Warns of a **potentially** hazardous situation that **may** cause minor injury.

**IMPORTANT**

Warns of a **potential** situation that **may** cause material or environmental damage and disrupt operative processes.

#### 1. Risk of electrical shock

**WARNING** Risk of death by electrical shock

- Read the operating instructions prior to use
- Make sure the device has been de-energised prior to working on it
- Do not remove contact protection panels
- Avoid contact with conducting parts
- Do not bring plug contacts in contact with pointed and metal objects
- Use in intended environments only
- Operate the device using a power unit meeting the specifications of the type plate only!
- Keep the device/power unit away from humidity, liquid, vapour and dust
- Do not modify the device
- Do not connect the device during thunderstorms
- Approach specialist retailers if you require repairs

#### 2. Hazards during assembly(if intended)

**CAUTION** Sharp components  
Potential injuries to fingers or hands during assembly(if intended)

- Read the operating instructions prior to assembly
- Avoid coming into contact with sharp edges or pointed components
- Do not force components together
- Use suitable tools
- Use potentially enclosed accessories and tools only

### Safety information

#### 3. Hazards caused by a development of heat

**IMPORTANT**

**Insufficient device / power unit ventilation**  
Overheating and failure of the device / power unit.

- Prevent externally heating up components and ensure an exchange of air
- Do not cover the fan outlet and passive cooling elements
- Avoid direct sunlight on the device/power unit
- Guarantee sufficient ambient air for the device/power unit
- Do not place objects on the device/power unit

#### 4. Hazards caused by very small parts and packaging

**WARNING**

**Risk of suffocation**  
Risk of death by suffocation or swallowing

- Keep small parts and accessories away from children
- Store/dispose of plastic bags and packaging in an area that is inaccessible to children
- Do not hand over small parts and packaging to children

#### 5. Potential data loss

**IMPORTANT**

**Data lost during commissioning**  
Potentially irreversible data loss

- Always comply with the information in the operating instructions/quick installation guide
- Exclusively use the product once the specifications have been met
- Back up data prior to commissioning
- Back up data prior to connecting new hardware
- Use accessories enclosed with the product

#### 6. Cleaning the device

**IMPORTANT**

**Harmful cleaning agents**  
Scratches, discolouration, damage caused by moisture or short circuit in the device

- Disconnect the device prior to cleaning
- Aggressive or intense cleaning agents and solvents are unsuitable
- Make sure there is no residual moisture after cleaning
- We recommend cleaning devices using a dry, anti-static cloth

#### 7. Cleaning the device

**IMPORTANT**

**Environment pollution, unsuitable for recycling**  
Potential environmental pollution caused by components, recycling circle interrupted

This icon on product and packaging indicates that this product must not be disposed of as part of domestic waste. In compliance with the Waste Electrical and Electronic Equipment Directive (WEEE) this electrical device and potentially included batteries must not be disposed of in conventional, domestic waste or **recycling waste**. If you would like to dispose of this product and potentially included batteries, please return it to the retailer or your local waste disposal and recycling point.
